SUMMARY

Motivated Web Developer with hands-on experience in building responsive and user-focused web applications using modern front-end technologies. Strong understanding of UI/UX principles, component-based architecture, and clean code practices. Passionate about creating scalable and performant web solutions.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, C++

Frameworks & Libraries: ReactJs, Vite, Tailwind CSS, NodeJs

Databases: MySQL

Web Concepts: Responsive Design, UI/UX Principles, CRUD Operations

Tools: Git, GitHub, VS Code, Canva, AWS

PROJECTS

Employee Management System

React, Vite, Tailwind CSS

- Developed a full-stack-style employee management web application with complete CRUD (Create, Read, Update, Delete) functionality, enabling efficient tracking of employee records.
- Architected the application using Vite for optimized build performance and faster development workflows, reducing load times significantly compared to traditional bundlers.
- Implemented client-side data persistence using the browser's localStorage API, ensuring data integrity across sessions without requiring backend infrastructure.
- Designed a modular, reusable component library (forms, tables, modals, cards) using React, improving code maintainability and reducing development time for future features.
- Built a fully responsive UI with Tailwind CSS, ensuring consistent user experience across desktop, tablet, and mobile devices.

Weather Application

HTML, CSS, JavaScript

- Developed a real-time weather application using external weather APIs.
- Displayed dynamic weather data with a clean, responsive UI.
- Ensured cross-device compatibility and optimized performance.
- Implemented error handling and loading states to gracefully manage API failures and slow network conditions, improving overall user experience.
- Added location-based search with support for city name and current geolocation (via the Geolocation API), allowing users to fetch weather data instantly without manual input.

EDUCATION

VIT Bhopal University

Computer Science and Engineering

B.Tech

CGPA: 8.57

DAV Public School, Hehal (CBSE)

Class XII – 80.6% (2023)

Class X – 84.6% (2021)

CERTIFICATIONS

- Human-Computer Interaction – NPTEL
- Learn C++ Programming – Beginner to Advanced

EXTRA-CURRICULAR ACTIVITIES

- Actively solve Data Structures and Algorithms problems on LeetCode to strengthen problem-solving skills.
- Regularly explore modern front-end design trends and UI/UX best practices.
